### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 22, 2010 has been entered.

2. Claims 10 and 36 have been amended.

Claim 55 has been added.

Claims 1-9, 11-13, 16-35, and 39-54 have been cancelled.

3. Claims 10, 14, 15, 36-38, and 55 are under examination.

4. The following office action contains NEW GROUNDS of Rejection.

### ***Information Disclosure Statement***

5. The information disclosure statement (IDS) submitted on June 30, 2009 has been considered by the examiner and an initialed copy of the IDS is included with the mailing of this office action.

***Rejections Withdrawn***

6. The rejection of claims 32 and 36-38 under 35 U.S.C. 102(b) as being anticipated by Gabathuler, et al. is withdrawn in view of applicant's arguments regarding the conjugated p97 and the amendment to the claims. This rejection may be reinstated if the claims are amended in view of the new matter rejection below.

7. The rejection of claims 10, 14, 15, 32, and 36-38 under 35 U.S.C. 102(e) as being anticipated by Jefferies, et al. is withdrawn in view of applicant's arguments and the amendment to the claims. This rejection may be reinstated if the claims are amended in view of the new matter rejection below.

***NEW GROUNDS of Rejection***

***Claim Rejections - 35 USC § 112***

8. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

9. Claims 10, 14, 15, 36-38, and 55 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The response filed June 30, 2009 and February 22, 2010 has introduced NEW

Art Unit: 1643

MATTER into the claims. Newly amended claims 10 and 36 and new claim 55 recite "being unconjugated to any moiety" referring to the p97. The response filed June 30, 2009 pointed to references to "p97 alone" to provide support for the claim amendment. Instant claims 10, 36, and 55 now recite limitations, which were not clearly disclosed in the specification as filed, and now change the scope of the instant disclosure as filed. Such limitations recited in claims 10, 36, and 55, which did not appear in the specification, as filed, introduce new concepts and violate the description requirement of the first paragraph of 35 U.S.C 112. Applicant is required to provide sufficient written support for the limitations recited in present claims 10, 36, and 55 in the specification or claims, as-filed, or remove these limitations from the claims in response to this Office Action.

### ***Conclusion***

10. No claims are allowed.
